Field of Interest:

Human Resources, Operations Coordinator, Project Coordinator, Executive Assistant, Virtual Assistant

Professional Summary

Detail-oriented Senior Virtual Assistant and Civil Engineer with over 3 years of combined experience in executive support, administration, recruitment, manufacturing operations, process improvement, and project coordination. Proven ability to manage multiple priorities, streamline workflows, support leadership teams, and improve operational efficiency. Skilled in project management, HR administration, research, customer communication, and business operations.

Work Experience

Universal Groups Pty Ltd (Australia)

Senior Virtual Assistant

Remote, Philippines

Sept 2024 - Present

- Provide executive and administrative support to the Director, assisting with daily operations, strategic initiatives, and business growth activities.
- Manage executive calendars, email correspondence, appointments, meetings, and travel arrangements to ensure efficient scheduling and communication.
- Coordinate end-to-end recruitment and onboarding processes, including candidate screening, interview scheduling, preparation of employment documents, and successful onboarding of 10+ new team members.
- Schedule and manage 15+ candidate interviews weekly across multiple departments while maintaining accurate recruitment records and communication.
- Conduct market, competitor, and product research to support business development, strategic planning, and decision-making.
- Oversee team workflows, task delegation, project follow-ups, and accountability tracking to ensure deadlines and deliverables are consistently met.
- Manage social media content scheduling across Facebook, Instagram, and LinkedIn, while maintaining user access permissions and collaboration tools.
- Support bookkeeping activities for 15 business accounts using QuickBooks, improve document management systems, and contribute to process improvements that enhance operational efficiency and scalability.

Sumi North Philippines Wiring System (SNPW)

Production Engineering Senior Staff

Binalonan, Pangasinan

Dec 2022 - April 2024

- Managed the setup, optimization, and continuous improvement of 4 production lines to support operational efficiency and customer requirements.
- Supervised and trained 50+ production operators on standard operating procedures, quality standards, safety compliance, and process improvements.
- Led Kaizen and continuous improvement initiatives, achieving zero defects on one production line for approximately 8 consecutive months.
- Increased production efficiency by up to 95% during new line implementation through process optimization, workflow improvements, and resource planning.
- Reduced manpower requirements from 8 to 5 operators while maintaining production output and quality standards.
- Coordinated with cross-functional teams, including Production Control, Quality Assurance, and Engineering, to ensure smooth operations and on-time delivery.
- Conducted root cause analysis, implemented corrective actions, and developed operational documentation, including work instructions, manuals, and standard operating procedures.

- Prepared as-built drawings for building and bridge projects using AutoCAD.
- Assisted with quantity take-offs, cost estimation, and project documentation.
- Supported project supervision and monitored construction activities to ensure compliance with project requirements.
- Coordinated with site personnel and workers to support daily project operations.

- Processed and prepared birth, marriage, and death certificates with accuracy and confidentiality.
- Assisted with records management, filing, and administrative support functions.
- Maintained organized documentation and supported daily office operations.
